INTRODUCTION	p. 4
STRUCTURE OF THE REGULATION	p. 5
The “Whereas”	p. 5
The text	p. 5
The annexes	p. 5
Annex I: Cosmetic product safety report	p. 5
Annexe II : List of substances prohibited in cosmetic products	p. 5
Annex III: List of substances which cosmetic products must not c...	p. 5
Annex IV: List of colorants allowed in cosmetic products	p. 6
Annex V: List of preservatives allowed in cosmetic products	p. 6
Annex VI: List of UV filters allowed in cosmetic products	p. 6
Annex VII: Symbols used on packaging/container	p. 6
Annex VIII: List of validated alternative methods to animal test...	p. 7
Annex IX: Reference to the former Directive	p. 7
Correlation table	p. 7
THE PLAYERS	p. 8
The manufacturer	p. 8
The importer	p. 8
The distributor	p. 8
The end user	p. 8
THE RESPONSIBLE PERSON: DEFINITION AND OBLIGATIONS	p. 9
Who is the Responsible Person?	p. 9
The manufacturer	p. 9
The importer	p. 9
The distributor	p. 9
The obligations of the Responsible Person	p. 10
THE PIF, PRODUCT INFORMATION FILE	p. 12
PIF: Which responsibilities, for whom?	p. 12
Duties of the Responsible Person	p. 12
Duties of the distributor	p. 13
Duties of the safety assessor	p. 13
Products concerned by the PIF	p. 14
PIF: which format, which language?	p. 15
Format	p. 15
Language	p. 15
PIF: location and access	p. 15
Location	p. 16
Access	p. 16
Controls and confidentiality	p. 16
Required information in the PIF	p. 18
Product Description	p. 18
Cosmetic Product Safety Report (CPSR)	p. 19
Method of Manufacture and Statement of GMP Compliance	p. 21
Proof of Effects	p. 21
	p. 22

Animal Testing Data	p. 23
Retention period of the PIF	p. 23
PIF updating	p. 23
Access to information of the PIF for the public	p. 23
What information needs to be made accessible to the public?	p. 23
Who needs to make the information accessible to the public?	p. 25
How should the information be made accessible to the public?	p. 25
ANNEX 1 AND THE COSMETIC PRODUCT SAFETY REPORT (CPSR)	p. 26
Annex I: the text	p. 26
PART A – Cosmetic product safety information	p. 26
PART B – Cosmetic product safety assessment	p. 28
A.1. - Quantitative and qualitative formula of the product	p. 28
First listing	p. 29
Splitting raw materials	p. 29
Mention of allergens	p. 30
Substances consolidation	p. 32
The function of the substances	p. 33
A.2. - Physical/chemical characteristics and stability of the co...	p. 34
The raw materials specifications	p. 35
The cosmetic product characteristics	p. 35
The product stability	p. 36
A.3. – Microbiological quality	p. 37
The microbiological quality of raw materials	p. 38
The microbiological quality of the finished product	p. 38
Assessment of the antimicrobial protection	p. 38
A.4. - Impurities, traces, information about the packaging mater...	p. 39
Impurities, traces, migrations and interactions	p. 39
Purity of substances and mixtures (raw materials)	p. 40
Technical unavoidability of prohibited substances traces	p. 40
Information about the packaging material	p. 41
A.5. - Normal and reasonably foreseeable use	p. 41
A.6. - Exposure to the cosmetic product	p. 42
Data and calculation	p. 42
Example: a shower-gel	p. 47
A.7. - Exposure to substances	p. 47
A.8. - Toxicological profile of the substances	p. 48
In practice	p. 48
Specific data	p. 49
A.9. – Undesirable effects and serious undesirable effects	p. 49
Required data	p. 49
The notification	p. 50
The in-house organization	p. 50
A.10. – Information on the cosmetic product	p. 53
THE NOTIFICATION OF PRODUCTS	p. 55
Notification by the Responsible Person	p. 55
Notification by distributors	p. 55
For practical purposes: an electronic portal	p. 56
NANOMATERIALS	p. 57

Declaration	p. 57
Notification	p. 58
Nanos exempt from notification	p. 58
Nanos pending a decision	p. 59
The data to be notified	p. 60
Diverse definitions, tricky characterization	p. 60
The definition issue	p. 60
Characterization challenges	p. 61
The SCCS Guidelines	p. 61
The safety assessment	p. 64
Risk assessment	p. 65
Exposure assessment	p. 65
Risk identification and characterization of the response-dose	p. 67
Risk assessment	p. 68
Labelling	p. 68
When does a nano-ingredient need to be labelled?	p. 68
CMR SUBSTANCES	p. 71
The harmonized classification	p. 71
The prohibition... and its exceptions	p. 71
From automatic ban to Omnibus	p. 72
Ingredients in Omnibuses	p. 72
ENDOCRINE DISRUPTORS	p. 74
The discovery of endocrine disruptors	p. 74
Endocrine disruptors in Cosmetics Regulation	p. 76
Endocrine disrupting ingredients in cosmetics	p. 77
GOOD MANUFACTURING PRACTICES (GMPS)	p. 81
ISO 22716 Standard	p. 81
Audit vs. Certification	p. 81
GMPs inspections	p. 82
PRODUCT LABELLING	p. 85
Mandatory information	p. 85
Claims	p. 85
The rules of special cases	p. 85
Labelling in practice	p. 86
